Go Out Be In V

17 - 24 July 2017

**ANOTHER
GOBI
YOUTH
EXCHANGE
IS GONE...**

But lot of memories will stay
in our mind forever.
We want to say **THANK YOU**
to all the participants, the
staff and the volunteers for
the hard work but also for the
great time together.
This is the outcome from the
Media Group's work during
the week.
Hope you enjoy!

GOBI'S 2017 MEDIA GROUP

PRESENTS:

THE ULTIMATE RESEARCH ON BREAKFAST HABITS OF ALL AROUND EUROPE

INVOLVED COUNTRIES:

ITALY, SPAIN, HUNGARY,
SWEDEN AND BULGARIA

SALTY OR SWEET?

What a surprise!

The hottest outcome of our research is unbelievable...

**Apparently,
Italy is the only one country always
eating SWEET breakfast!**

When they go out for breakfast, it is croissants filled with chocolate or cream or marmalade, drinking espresso coffee or cappuccino.

At home they often eat toasted bread with honey or jam, or milk / sweet yoghurt with cereals.

(never forgetting espresso obviously...)

Seems like it's extremely hard for Italians to think about eating salty stuff for breakfast...

but what about foreigner tourists having breakfast in Italy then?!

SORRY ITALY, YOU'RE DOING IT WRONG!

(Just joking, we love you the way you are)

BREAD, SPICE AND EVERYTHING NICE!

So all over Europe breakfast is actually salty. Spain, Sweden and Hungary agree in eating sandwiches, cheese, ham eggs and cereals, sometimes with mixed vegetables.

For Bulgarians, breakfast also means **BANITSA!**

It is a tasty traditional salty cake filled with cheese.

And for special breakfast there's also space for **PANCAKES!**

NB: Doesn't matter from where you come from, always remember to eat breakfast in the morning, which is the most important meal of the day! And either salty or sweet, just add one or two fruits in your breakfast menu.

THANK YOU ALL FOR YOUR PRECIOUS INTERVIEWS!

Canoeing day to Sandsbro

19 JULY 2017 - MEDIA GROUP REPORT

During GOBI there's one theme which is the main issues of the week: **SPORT AND OPENAIR!**

And we are lucky enough to have the possibility to access canoes to go through lake Toftasjon from Fylleryd to Sandsbro and learn how to use it thanks to our precious guide (who is also the owner of our host home in the park!).

The GOBI's Media Group (made of participants who're interested in media and reporting) were involved in the report of the day.

In order to organize the canoeing teams, the participants were divided in groups based on experienced persons, and then in pairs for using the boat.

Aelita, from Bulgaria, was in charge to control one of the canoes to Sandsbro and she reports a very good tip for people who wants to try the same adventure on the boat:

“ The closer you paddle near the canoe, the more you go straight! If you want to veer instead, just do the opposite.

In the words of participants the day was **chilling, challenging and entertaining** at the same time. During the pause from rowing, they played games from their countries, as well as the Swedish Kubb and of course other sports! Most popular aside volleyball and football have been Bowl and Brännball.

For all participants it was the first time in the amazing natural landscapes of Sweden, for some of them it was the first time canoeing and even for swimming in the lake; Lots of records reached! Canoeing is also a matter of trust in the other person your rowing with. Through this every person can quickly get connections. The team is stronger now, and some of the relations born here will probably last in the future. Despite the tiredness, back in the house the quote of the day from every participant was:

It was too short! ”

HUMAN, LISTEN TO ME!

This game's purpose was to give voice to the voiceless inhabitants of our planet Earth: Animals.

Teams Bunny, Seagull, Whale and Polar Bear collected what these animals had to say in 4 letters to the human kind.

Let's see what they told us!

WHALE

Dear humans,

Hello, We're writing to you in behalf of all the whales around the world and oceans.

We are five whale celebrities: Aelita, Mattia, Rocio, Veronica and Tomas. Here are our thoughts and advice for you.

Aelita is very hungry. She is not happy of you polluting the water and taking that much fishes, because we don't find food anymore.

Mattia, the second whale, is sweating too much! The water is becoming too hot. Give us back icebergs, so we can keep our beer fresh.

Rocio is the "lucky" one. She lives under protection of an association and nobody can touch her.

The fourth whale here, Veronica, wants to tell you that her whale friends in Japan and Iceland are non-stop hunted and also killed for entertainment. If this doesn't stop, they're facing extinction!!

Last one, Tomas, is the oldest and wisest. He experienced a lot of stories like these already. And, funny or not, there's a big upcoming problem that we must solve all together:

this is the 4679th letter we write to you.
And we haven't received any answer yet.

We hope this is gonna change.

Best regards, GOBI Whales

BUNNY

Dear humans,

Could you please stop throwing your trash on the ground? We always have to move our houses away because of the fire, the trash and stuff.

We enjoy to be pretty but we don't need your make up on us, we prefer to go for our natural look. And our fur is to warm up our babies, not your neck!

The forest is my home, not a small cage in your room. We have the right to be free as much as you, and jumping everywhere as we please.

We would be grateful if you can make us access an underground path for us to cross... we don't want to be hit by your cars on the streets anymore!

Best regards, Bunnies.

SEAGULL

Dear humans,

As representatives of Seagull's Union we
have a list of brief demands:

1. Don't kill us for fun.
2. Don't throw your trash in the sea.
3. Don't steal our fishes!
4. Stop your children from chasing us
while we eat or chill on the shore.

Sincerely,
President of Seagulls

**POLAR
BEAR**

Dear humans,

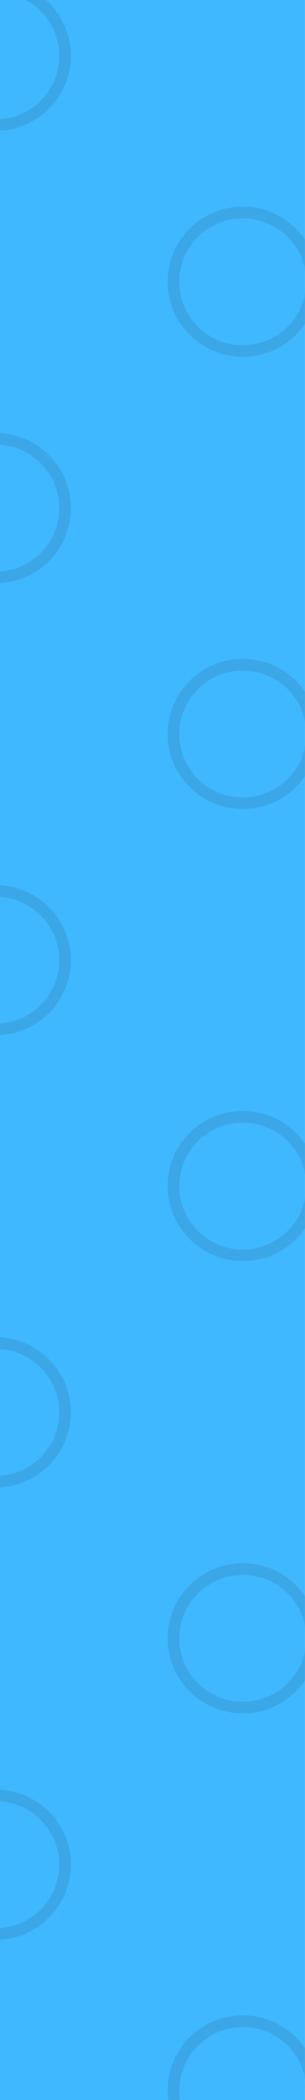

As members of the polar bears community, we would like to suggest stop hunting and catching us, or we'll start doing the same to you.

We also suggest to reduce your greenhouse gases emission to our atmosphere (we like to live green, but not THAT kind of "green").

Even if we are animals, we totally feel and understand the situations. I know I've rights you don't respect.

To sum up, give me respect and I'll give you free bear hugs.

Yours sincerely, xoxo
Polar bears
